CARDIOPULMONARY SERVICES

PULMONARY REHAB

A 6-10 week program designed to help you breathe better, strengthen your body, reach personal goals and maximize your daily activities. One hour sessions scheduled at your convenience Monday, Tuesday or Thursday.

SLEEP STUDIES

A private bedroom and bath designed with your comfort in mind. We monitor your sleep to diagnose or treat sleep disorders Monday thru Friday at 8:30 p.m.

EKG

A paper tracing of your heartbeat done during the hours of 7 am to 2:30 pm weekdays and 7 am to 11:30 am on Saturdays.

STRESS TESTING

Walking on a treadmill or drug induced exercise while your physician and our staff monitor your heart rate, rhythm, and blood pressure. Scheduled Tuesday thru Friday mornings.

HOLTER MONITOR

A test you take home for a day that records your heartbeat. With the push of a button, you highlight areas where you may feel something, then note in a diary what you were doing at the time so we can compare and analyze. Scheduled Monday thru Thursday.

PULMONARY FUNCTION TESTING BASIC SPIROMETRY

Breathing tests designed to establish normal lung volumes or detect any abnormalities. Scheduled Tuesday thru Friday.

PULSE OXIMETRY

A resting and/or walking test to detect any drop in your oxygen level. Scheduled Monday thru Friday.

NEBULIZER TREATMENTS

Breathing treatments with medication ordered by your physician done as an outpatient as your schedule permits.

CHEST PHYSIOTHERAPY

The ultimate back massage designed to break up mucous and help you breathe better. This is usually done after breathing treatments.
